

Trip to RHS Wisley 7th December 2021

Never let the weather put you off enjoying yourself. We set off on a very pleasant coach drive to RHS Wisley with the windscreen wipers already going. On arrival the first outing in the rain was to the restaurant for coffee. Afterwards we took a walk around the huge shopping area. So much to see and buy. Christmas is here, and we couldn't resist buying a few baubles for the Christmas tree.

Coat done up and wet weather gear on and it was time for a walk around the gardens. Even in the rain the gardens were magnificent, in particular the dogwood with all their colours they looked brilliant.

Afternoon tea was a welcome break and next it was the "Glow 2021 at Wisley", and yes, the rain had stopped. It was brilliant, we followed the well lit pathway around the gardens and into the Glasshouse. Trees and shrubs were bathed in changing lights and colours, and we had a musical display of fire candles and fountains, which were truly magnificent. Home safe and sound after a thoroughly enjoyable day.

Sue

Some of my photos included below. Hopefully they show that, despite Storm Barra, there was plenty at Wisley and the Glow experience to lift the spirits.

It was lovely to see the pack of school children learn about the plants in the glass house and see their enthusiasm for the waterfall.

Everything, from the smooth coach ride, to the delicious food and drinks available reflected a fabulous outing.

Thank you, travel ladies.....

Carolyn Whitlock
